To Whom It May Concern:

I am the Chief Operating Officer of New York Press & Graphics, Inc, a full service graphic design and commercial printing company founded in Albany New York in 1989.

Djurica Bogosavljev has worked as a freelancer for our company for the past year and a half. He was originally contracted to redesign our existing web site. We have used him consistently because of his positive attitude, broad web site knowledge and punctuality.

Since our previous website was very static and amateur looking, Djurica brought an attractive and professional look and feel that we truly needed. We are extremely proud of our new web site and have received positive feedback from our clients. His knowledge and creative use of flash greatly enhanced the project. He was extremely positive and enthusiastic throughout the entire time he worked with us as well.

I would highly recommend Djurica Bogosavljev for web design and development. It was truly a pleasure working with him. His level of professionalism, timeliness and professionalism made it easy to complete our project on time. We didn't have any problems working such from such long distances as well!

Yours truly,
