From: Itzchak Gotlib, President, Ramot Elram Management, Ltd. Balkan branch of Gan-Shmuel Foods Ltd.

Description: Reference for Djurica Bogosavljev

To Whom It May Concern:

I am the President of Ramot Elram Management, Ltd., Balkan branch of Gan-Shmuel Foods Ltd., which was formed by leaders in the natural fruit juice, founded in Tel-Aviv 1989, Israel. Djurica Bogosavljev has worked as freelancer for our company for the past year. He has worked on our new web site design/development, flash animation. It is with this background and experience that I offer the following recommendation for Djurica Bogosavljev.

We have worked with Djurica and **djukabog.com** over the course of several months in the development of a Multilanguage web site for our business. At every step they demonstrated the utmost professionalism and knowledge of their business. They were patient with our lack of knowledge in the web design field. They were a good listener about our wants and needs and a good director and information provider on the choices we needed to make. The finished product was tailored well to our wants and benefited from their creativity and experience. It was delivered on time and neither rushed or stalled.

Thank you so much for the amazing site **djukabog.com** developed for us. It far surpassed our expectations! You took all of my ideas and information and turned it into a unique site that encompasses who we are and what we provide. The flash is interesting yet subtle, is very easy to use. **We recommend djukabog.com to anyone in need of web design/development and hosting services, and look forward to continuing our business relationship with them!**

Thank you again for being so professional and offering your knowledgeable advice throughout the entire process.
